

Name _____ Chapter 10 Quiz 2 Review

Directions: Work through each item below and study the concepts for the quiz!

1. Know how to factor and solve quadratic equations. Practice by taking a few problems from HW 10.5 and doing the work again.
2. Be sure to know the quadratic formula AND how to use it to solve a quadratic equation. Practice by taking a few problems from HW 10.7 and doing the work again.
3. What do you think are the most important things to know from Notes 10.8?? You'll need to know that information AND how to use it! Practice this by taking a few problems from HW 10.8 and doing the work again. - using the discriminant to find the number of solutions.
4. From 10.9, you might want to know the equations for each type of graph we looked at.
5. There will be extra credit on the quiz. This will have to do with the vertical motion formula. ↓
